

Akkeshi Single Malt Whisky Seimei

HOKKAIDO, JAPAN

Akkeshi's Single Malt Seimei is the seventh entry in their "24 Seki Series" of whiskies that represent Japan's 24 seasons. Seimei is the time when winter begins to fade and nature that has been dormant during the coldest months begins to stir. The label is decorated with swallows to represent their return from warmer southern climates during harsh winters. The Seimei utilizes a greater blend of peated and unpeated malt aged in ex-bourbon barrels than previous releases. The sweetness of light smoke delicately dances between lemon cream, sea salt, and honey yielding a beautiful lingering finish of bittersweet chocolate. This beautiful new single malt from Akkeshi evokes the beginnings of spring, full of fresh dew covered foliage and rays of sunlight thawing the ground.

HOKKAIDO AKKESHI DISTILLERY

Located in Japan's northern most island of Hokkaido and further east than any other distillery in the country, the Akkeshi Distillery began production in 2016. The town of Akkeshi has a cool, moist climate with frequent rolling sea fog that rolls in from the marshes of the Bekan-Beushi wetlands. Fog and marshes like these are indispensable to the production of whisky with similar characteristics to the salt and smoke forward malts of Islay, Scotland. Operating in this delicately bountiful environment, the Akkeshi Distillery is committed to being a sustainable enterprise in harmony with its surrounding nature. The company's goal is to blend traditional Scottish methods with the unique flavors of the surrounding Akkeshi terroir. With extremely unique aromas and flavors unlike anything else, these whiskies will be a delight to aficionados worldwide.
