AKKESHI DISTILLERY

Located in Japan's northern most island of Hokkaido and further east than any other distillery in the country, the Akkeshi Distillery began production in 2016. The town of Akkeshi has a cool, moist climate with frequent rolling sea fog that rolls in from the marshes of the Bekan-Beushi wetlands. Conditions like these are indispensable to the production of whisky with similar characteristics to the salt and smoke forward malts of Islay Scotland. Operating in this delicately bountiful environment, the Akkeshi Distillery is committed to being a sustainable enterprise, existing in harmony with its surrounding nature. The company's goal is to blend traditional Scottish methods with the unique flavors of the surrounding Akkeshi terroir. With extremely unique aromas and flavors unlike anything else, these whiskies will be a delight to aficionados worldwide.
