

## KANOSUKE SINGLE MALT 2022 LIMITED EDITION

KAGOSHIMA, JAPAN

### 2023 DOUBLE GOLD: THE SAN FRANCISCO WORLD SPIRITS COMPETITION

In the distillery's first season, Kanosuke laid down 100 barrels of ex- "Mellowed Kozuru" rice shochu, 50 barrels of ex-bourbon, and just 30 oloroso sherry casks. This 2022 limited edition single malt release brings the sherry casks into a greater focus to compliment the ex-shochu and bourbon barrels.

Bright, cinnamon scented plum intermingles with coffee and wood spice, yielding to an assertive finish full of honied black tea. This incredible offering from the Kanosuke Distillery furthers their push to the horizons of Japanese whisky.

## THE KANOSUKE DISTILLERY

The Kanosuke Distillery went into operation in 2018 and is named after the 2nd generation leader of the company, Kanosuke Komasa. The distillery is located on a 9,000 square meter tract of land along Fukiagehama Beach on the west coast of Kagoshima Prefecture. The two-story distillery house features 3 unique pot stills, compared to the typical 2 pot stills commonly found in similarly small distilleries. Each of the three pot stills has a different neck shape and lyne arm angle which yield uniquely flavorful distillates to create the Kanosuke profile.
