

MARS KOMAGATAKE 2021 EDITION

NAGANO, JAPAN

Mars Shinshu sits at the base Mt. Komagatake the largest peak in the Japanese Kiso Mountain Range. This annual single malt release is a reflection of the natural beauty surrounding the distillery, its fresh crisp air and perfectly soft snowmelt water.

TASTING NOTES

Bright aromas of quince, apricot & banana shine through followed by honey & hazelnut from the sherry casks and a gentle sweetness reminiscent of green melon & dried persimmons. True to the Mars house the finish is long and smooth with notes of vanilla & persimmon dancing through.

MARS DISTILLERY

Mars Whisky is located between Japan's soaring Southern Alps and the towering Central Alps. The Hombo family have been distilling for more than a century and added whisky to their repertoire in 1949. At that time the distillery was located in the Tsunuki region of Kagoshima Prefecture on the southern-most island of Kyushu.

Until 1984, it was the southernmost whisky made in Japan, which ended when the Hombo clan moved the distillery to the idyllic alpine setting of Miyada village in southern Nagano Prefecture, Central Japan. They chose this site for its cool temperature, which slowed maturation, and the plentiful soft granite filtered snowmelt fed aquifers.
