

KOMAGATAKE YAKUSHIMA AGING 2020

NAGANO, JAPAN

The Single Malt Komagatake Yakushima Aging series is distilled in at Mars Shinshu Distillery at the base of the Komagatake mountains, and then transported south to be aged in Yakushima, an island 60km off of the Kagoshima mainland. The key malt is the bourbon barrel aged along with a hint of sherry notes. Very lightly peated (about 6ppm). This whisky is diluted to 53% to get more fruitiness and juicy flavors. Orange and Lemonade like juicy and refreshing aroma. Little by little vanilla or custard cream comes out with a hint of peat. Very juicy fruitiness. Juicy fruits lingers on the finish but completes the whisky well.

CASK STRENGTH

53.0% ABV

SIZE

750 ML

TIME

OVER 3 - 4 YEARS

STYLE

DISTILLED

2015 - 2016

BARRELS

NON CHILL FILTERED

MARS DISTILLERY

Mars Whisky is located between Japan's soaring Southern Alps and the towering Central Alps. The Hombo family have been distilling for more than a century and added whisky to their repertoire in 1949. At that time the distillery was located in the Tsunuki region of Kagoshima Prefecture on the southern-most island of Kyushu.

Until 1984, it was the southernmost whisky made in Japan, which ended when the Hombo clan moved the distillery to the idyllic alpine setting of Miyada village in southern Nagano Prefecture, Central Japan. They chose this site for its cool temperature, which slowed maturation, and the plentiful soft granite filtered snowmelt fed aquifers.
