TRIANON

HOW WE KEEP IT TRUE.

True Blue Weber Agave Flavor. The rich, volcanic soil of Amatitán, Mexico produces the most succulent Blue Weber Agaves on earth. Our master distillers ensure this sweet, luscious Blue Weber Agave flavor always shines through.

We believe a truly great tequila like Trianon cannot be rushed and cannot be mass produced or duplicated. True to the Heart. Unlike other premium tequilas, we exclusively bottle the center, or "heart," of each true small batch distillation.
